

Interregional peer reviews

In person or online: team up with experienced peers to improve your regional policies

Do you work on regional development policies? Are you involved in the structural funds management?
Would you like to learn from smart and sustainable solutions from other regions?

The **Interreg Europe Policy Learning Platform** has a specialised service for you. We can organise **2-day meetings in your region or online**. Going deep into the issues and challenges you are facing, our peer review service will allow you to exchange, learn and brainstorm with a carefully selected group of practitioners from other European regions.

Whether you aim at boosting the entrepreneurial spirit in your region, improve the management of your

Natura 2000 sites or get ready for next programming period, chances are someone, somewhere, already was in a similar situation and can help with concrete ideas and solutions.

Our experts support and facilitate the process from A to Z, without any additional costs for you. Considering your specific regional context and stakeholder views, this exercise will bring you **inspiration** and a **clear vision for your future work**.

'It would be too expensive not to do it. Indeed, we neither have the funding nor the time to miss the opportunity of benefitting from the experiences of others, good and bad. **The peer review allows you to show that new ideas and approaches work elsewhere, a powerful tool.**

Host of a peer review, Jan Nylander, Region Gävleborg, Sweden

Three reasons to apply:

- **FIND** the best solution for your regional challenge through exchanging with peers
- **MEET** in person or online; the format will be adapted to your needs
- **EASY** application process, online, no supporting documents

Interested? Our call for applications is always open!
